FOR IMMEDIATE RELEASE

MarinHealth Names Breast Health Center in Honor of Michael and Sharon Stone

Longtime MarinHealth supporters make transformational gift to advance breast health and women's care for generations to come

GREENBRAE, Calif. — October 13, 2026 — MarinHealth today announced the naming of the **Michael & Sharon Stone Family Breast Health Center** in recognition of a transformational gift from longtime MarinHealth supporters Mike and Sharon Stone.

The gift, made in support of MarinHealth Foundation's **Building on Excellence** campaign to expand the growth and expansion of the hospital's campus, represents the Stone family's latest investment in advancing exceptional health care for the North Bay and reflects a deeply personal commitment to breast health.

Mike's connection to breast health began with his mother, Mollie Stone, who survived breast cancer in 1969. Her experience has remained meaningful to Mike throughout his life and helped inspire his and Sharon's longstanding support of breast health services at MarinHealth.

"My mother's experience with breast cancer has stayed with me throughout my life," said Mike Stone. "Sharon and I believe strongly in giving back to the community that has given so much to our family. It means a great deal to us to support the physicians, nurses and staff who care for women at MarinHealth and to help ensure that exceptional breast care will be here for generations to come."

The Stones' commitment to breast health spans many years. In 2022, MarinHealth Foundation recognized Mike's generosity by naming the Breast Health Center lobby in honor of his mother, Mollie. Mike and Sharon also served as Co-Chairs of the 2025 MarinHealth Foundation Gala, which helped MarinHealth acquire a next-generation tomosynthesis mammography system to advance breast cancer screening and detection.

“Mike and Sharon Stone have been extraordinary partners to MarinHealth for many years, giving not only through their philanthropy, but through their leadership and unwavering commitment to this community,” said David Klein, MD, Chief Executive Officer of MarinHealth. “Their generosity has touched virtually every area of our organization, and this latest gift carries special meaning because of Mike’s personal connection to breast cancer through his mother. We are deeply honored that the Michael & Sharon Stone Family Breast Health Center will carry their family’s name.”

Mike’s relationship with MarinHealth extends well beyond his personal philanthropy. He has served on the MarinHealth Foundation Board since 2011 and currently serves as Vice Chair, as well as a member of the Building on Excellence Campaign Cabinet. He also served as Co-Chair of the Foundation’s previous capital campaign, **Building Better Health,** helping lead the philanthropic effort that raised more than $67 million in support of MarinHealth Medical Center’s Oak Pavilion, which opened in 2020.

Over the years, Mike and the Stone family have supported programs, services and advanced technology throughout MarinHealth, including cardiac rehabilitation, outpatient MRI, advanced surgical imaging, orthopedics, vascular surgery, nursing education, cardiovascular care, diabetes care, behavioral health and other important priorities.

“Mike and Sharon have an extraordinary ability to see where their generosity can make a meaningful difference,” said Liz Kolcun, President and Chief Development Officer, MarinHealth Foundation. “They have been there for MarinHealth time and again—supporting innovation, strengthening patient care and helping us respond to the changing needs of our community. This gift is especially meaningful because it connects Mike’s personal family story with a lasting investment in the health of generations of women.”

The **Michael & Sharon Stone Family Breast Health Center**, located at 100A Drakes Landing Road in Greenbrae, is one of MarinHealth’s highest-volume centers. With more than 20,000 mammography visits each year, the Breast Health Center has the second-highest patient volume at MarinHealth, surpassed only by the Emergency Department. The Center provides breast health screening and diagnostic mammography, breast imaging, ultrasound, biopsy, and bone density testing in a setting dedicated to breast health.

The Stones’ gift is part of MarinHealth Foundation’s **Building on Excellence** campaign, an ambitious philanthropic effort supporting the next chapter of MarinHealth’s growth. The campaign will help support the continued growth and modernization of the MarinHealth Medical Center campus, expanding capacity and ensuring MarinHealth can continue meeting the community’s healthcare needs for generations to come.

For the Stone family, the naming creates a meaningful connection across generations—from Mollie Stone’s experience with breast cancer more than half a century ago to the women who will turn to MarinHealth for breast care for decades to come.
